

Quality in laser fine machining and precision waterjet cutting

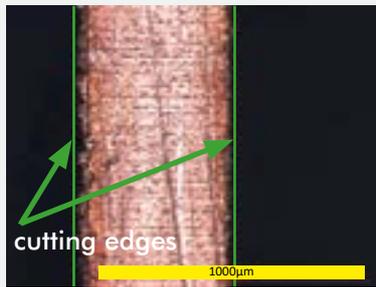

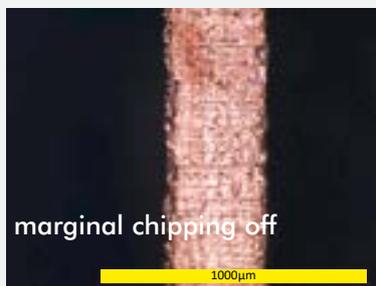

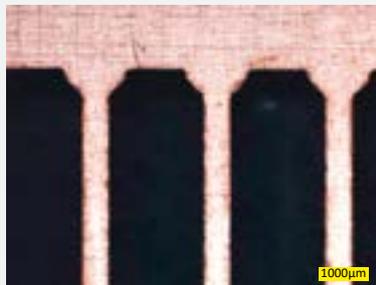

A customer's report

Laser cut pattern vs. waterjet cut pattern before tin plating

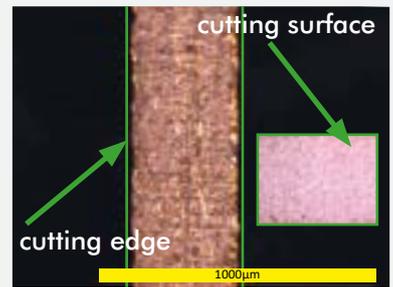

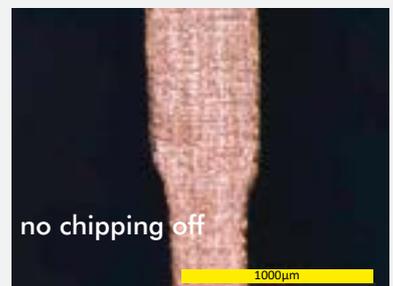

Laser fine machining comparison part

Laser fine machining DeSta

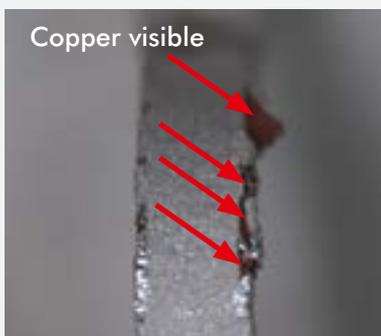

Precision waterjet cutting DeSta

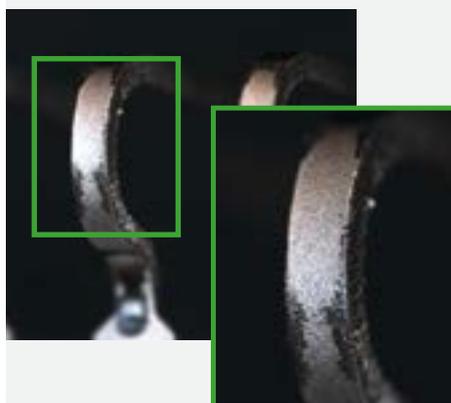

Laser cut pattern vs. waterjet cut pattern after tin plating and bending

Laser fine machining comparison part

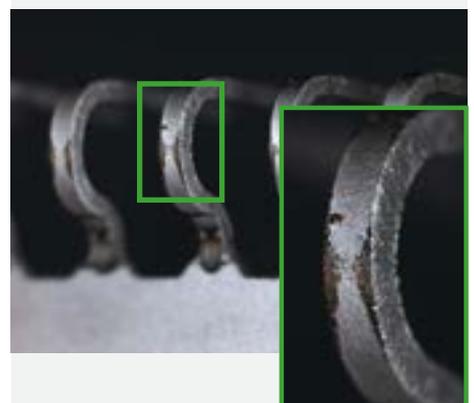

much chipping off,
Copper bared and visible

Laser fine machining DeSta

nearly no chipping off,
no bared and visible copper

Precision waterjet cutting DeSta

no chipping off,
no bared and visible copper

We are pleased to advice you, which process is best for you in terms of quality and cost -effectiveness.
